## Impact Investment Summit Asia Pacific

Peak convening of the impact ecosystem in the Region

- **Established** 2015
- **Grown** from 280 - 450 attendees
- **Beacon** for international luminaries
- **Important** date on international impact calendar
- **Critical catalyst** for capital deployment, learning and connecting in Asia Pacific impact investment community

## Our Purpose

It is our aim to continue to lead the convening of the impact ecosystem and catalyse impact investment acceleration in the region.

Working with key Partners and Sponsors, we aim to activate, accelerate, fertilise and cross-fertilise the impact investing ecosystem. In doing so we aim to demonstrate how it achieves three-dimensional returns on investment:

- Financial
- Social
- Environmental

## Serve, inform, inspire and connect the impact investment ecosystem

- Institutional: asset managers, superannuation and endowment funds, foundations - and partners in the quest
- Private: high net worth individuals, family offices, trusts and foundations
- Influencers: government, academia and media
- Lead the way with trends, case studies, guidance, data, benchmarking, innovation and information on impact investing
- Provide the 'fuel', facts and pathways essential to achieving optimum returns to society, the environment and impact investors
-
